

## **Meeting Minutes of the May 5, 2022, Special/Urgent Meeting via ZOOM**

### **Opening:**

The meeting of the Namakagon Lake Association was called to order at 8:03 P.M. by Jim Deroma, President

### **Roll Call of the Board & Attendees:**

Jim Deroma – President  
Larry Pribyl – Vice President  
Jeff Johnson – Treasure

Jerome Malmquist – Secretary  
Terry Cramer – Communications  
John Schneider – Board Member at Large

### **Approval of the Agenda:**

Accepted as submitted by Jim Deroma.

### **The Topic of Discussion and Approval of Desired Actions:**

A special meeting is required to update Lake Namakagon's hybrid watermilfoil strategy in time for processing our request to the Wisconsin DNR for their approval.

Members had reviewed the 2021 Hybrid Eurasian Water-Milfoil (HWM) report that was prepared by Matthew S. Berg, Research Biologist, Endangered Resource Services, LLC, Saint Croix Falls, Wisconsin after completing three sturdies on May 22, July 31, and August 15-18, 2021.

Discussion and summary of the unanimous decision:

1. The Association with not perform any Diver Assisted Suction Harvesting (DASH) as it often results in spreading the contamination.
2. The current report suggests that treatment be done in beds that are greater than ¼ acre. The oBard is requesting that beds less than 1/4 acre also be treated. In other words, if it is found, attack it. Leave no area untreated.
3. The Board requests that the treatment plan may include 2,4-D and ProcellaCor as treatment chemicals in addition to Diquat. (It appears that the treatment of the HWM with 2,4-D is most effective.)
4. A list of volunteers is needed to test water temperatures and to watch for the HWM. This is to verify locations and the best timing to treat the area.

### **Adjournment:**

A motion was made and seconded to adjourn the meeting. Approved by all at 8:30 A.M.

**The next Meeting is scheduled for May 21, 2022, at the Namakagon Town Hall.**
